English

### PROFILE

A goal-oriented Entry Level Frontend Developer with knowledge of HTML, CSS, JavaScript, React, and Next.js seeking to use technical proficiency and creativity to develop engaging user experiences and advance in a professional career. Looking to leverage effective debugging, code optimization and project collaboration capabilities to produce applications that exceed user expectations.

### WORK EXPERIENCE

#### Associate

KGISL-GSS

(July-November) - 2022

- Work focusedly in Building User Interface in React components designed using Tailwind CSS, Daisy UI and some third party libraries. Make sure the User experience is great and smooth.
- Collaborated with senior front-end developers to integrate user-facing elements with server-side logic, resulting in a 15% increase in user engagement and a 10% increase in conversion rates.
- Wrote reusable and efficient code, resulting in a 25% reduction in development time and a 15% increase in team productivity.
- Collaborated with cross-functional teams to troubleshoot and debug applications, resulting in a 20% reduction in production issues and a 10% increase in customer satisfaction.
- Automated testing tools, expertise in manual testing, or proficiency in specific programming languages.
- Optimized a RESTful API for a Marvel.ai data extraction application, reducing response times by 50% and improving overall system performance by 30%.

### COURSES

- MERN STACK Course completed in KGM College (Duration 'March-May 2022') - Kgisl Campus, Saravanampatti.
- Javascript Course - Udemy

## GITHUB PROJECTS

- Word Analytics Application -> User can able to count the words, characters that they were typed. Also it will check the characters length count of social media platforms ,whether it is enough fit for posting in the facebook and instagram. Outcome : {Learned best practices of react hooks}  
Project link : <https://github.com/Selva-kumar-K/Word-Analytics-Project>
